on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-20 are rejected under 35 U.S.C. § **102(b)** as being anticipated by Honda (U.S. Patent No. 5,610,811).

With respect to claim 1, Honda discloses surgical instrument file system including marking hospital instruments with an optically scannable mark (see at least col. 1, lines 13-16), reading and representing marks into a computer database (see e.g. col. 1, lines 17-20), using the instrument for hospital procedures and entering information into the database that identifies which instruments have been used in each hospital procedure (see e.g. col. 1, lines 9-20).

With respect to claim 2, Honda discloses that the marking is performed with a laser, an ink jet, or an acid etch (see e.g. col. 3, lines 63-67).

With respect to claim 3, Honda discloses an optical scanner electrically coupled to the database (see e.g. col. 5, lines 19-36).

With respect to claim 4, Honda discloses that the optical scanner is portable (see e.g. Fig. 2).

With respect to claim 5, Honda discloses that the scannable marks comprises information indicative of the part number of each instrument (see e.g. col. 6, lines 52-64).

With respect to claims 6-9, Honda discloses a maintenance schedule for each instrument (see e.g. Fig. 7, col. 5, lines 58-65 and col. 6, lines 44-51).

With respect to claims 10-12, Honda discloses that the database is a relational database, accessible at multiple data entry, retrieval locations and computer network (see e.g. Figs. 3-11 and cols. 5-6).

With respect to claims 13-20, the limitations of these claims have been noted in the rejection as applied to claim 1-12 above. Therefore, they are considered rejected as set forth above.
